<Enter one space>

Type your abstract here using Times New Roman Font 12. Please do not include any Figure, Table, Footnote or Reference. Start with brief background of work → one major objective → methodological approach → important findings → discussion and conclusion. Last date of submission of abstract is September 30, 2010. Abstract with late fee will be accepted up to October 20, 2010. Date of receipt of invited paper proposals is up to October 15, 2010. Those who wish to present their papers in Award Session should submit their Abstract with Full Paper by September 30, 2010. You can select any of the following broad topics for your presentation: Herbals in toxicity prevention, Nanotoxicology, Chemoprevention of cancer, Toxicity of GM foods, Alternative models in toxicology, Toxicogenomics and genetic polymorphism, Ecotoxicology, Immunotoxicology and Neurotoxicology of environmental chemicals. If your research topic does not fall in any of these topics, you need not worry. Your research topic should necessarily be from the broad field of toxicology. You will be communicated about acceptance of your presentation by October 15, 2010. In case you need more information, please keep yourself updated from the Conference link at our University's web site: [www.jamiahamdard.edu](http://www.jamiahamdard.edu). It is 200 words.
