Venue

National Institute of Nutrition is recognized globally for its pioneering studies on various aspects of nutrition. The Food and Drug Toxicology Research centre (FDTRC) and Advanced Studies in Pre-Clinical Toxicology were established subsequently dedicated to research and service activities pertaining to foods and drugs.

Host City

Hyderabad is known as city of pearls and also a IT hub. There are number of prestigious research organizations. The climate in November will be pleasant and temperature will be around 15-20°C. The city is famous for Moghalai cuisine and shopping centres. The National Institution of Nutrition is centrally located between the twin city of Hyderabad and Secunderabad. The airport is about 35 km from the venue of the conference. The Railway Station of Hyderabad (Nampally) is about 15 km and Secunderabad Railway Station is about 5 km from NIN.

Persons traveling by train will be picked up while persons taking the air route are advised to board aero-express from the airport and get down at Secunderabad pick up place "Keys High School" and take auto to place of their stay.

Dear Colleagues

The Society of Toxicology (STOX) India and Food and Drug Toxicology Research Centre, National Institute of Nutrition (Indian Council of Medical Research), Hyderabad are jointly organizing the XXIX Annual Conference of STOX and International Symposium on **“Recent Trends in Toxicology and Preclinical Toxicology” at NIN, Hyderabad from 5-7th November, 2009.**

This Conference is aimed as to bring National & International scientists on common platform to share views and exchange state of art knowledge on recent trends in toxicity and preclinical toxicology, toxicogenomics, food safety and Good Laboratory Practices. It is hoped to make the event a memorable experience both scientifically and personally.

In the recent past with the development of new categories of bio-pharmaceuticals like viz. biotech products, DNA vaccines, plant products, drugs, chemicals, genetically modified foods, stem cell therapy, nano medicine etc., the routine guidelines for pre-clinical toxicity evaluation are being developed on case to case basis. Since, the importance of genomics has become pertinent in the current situation, the new challenges for toxicologists are emerging.

Therefore the present symposium is organized with the following current topics. In addition pre-conference workshop on 4th November, 2009 on pre-clinical toxicology, ethics in animal experimentation and GLP.

TECHNICAL SESSIONS (Proposed)

- Pre-clinical and Clinical Toxicology of Drugs
- Detection of Environmental Toxicity
- Toxicogenomics
- Importance and Applicability of Good Laboratory Practice (GLP)
- Toxicological Evaluation of novel foods and recombinant products
- Current aspects in animal experimentations and Alternatives
- Role of Ethical Committees in Animal and Clinical Experiments

**Pre-conference workshop: 4th November, 2009
Pre-clinical Toxicology and ethics in animal experimentation and GLP.**
